## BUREAU OF LAND MANAGEMENT WARM SPRINGS RESOURCE AREA

15 East 500 North  
Fillmore, Utah 84631

IN REPLY REFER TO:  
3800  
(U-055)  
UTU-072849

June 20, 1994

WARREN G ALLSOP  
PRESIDENT  
DELTA DOLOMITE AND LIME COMPANY  
2599 CAPRICORN WAY  
SALT LAKE CITY UTAH 84124

Dear Mr. Allsop:

Your notice to conduct mining related operations on unpatented mining claims A 10, A 11, A 50, A 51, and A 21; UMC serial numbers 109524, 109525, 109526, 109528, 109530; on land located in S/2, Sec. 19, T. 21 S., R. 9 W., SLBM, was received on June 6, 1994, and has been accepted by this office. Your notice has been assigned case file number UTU-072849. Please use this number in any future correspondence concerning this notice. This number may be marked on your proof of labor and used in filing small miners exemptions for rental fees.

If you change your operation from what is described in your notice, you must contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, required by the Richfield District, Warm Springs Resource Area. Please follow these guidelines as they pertain to your operation.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. A copy of your notice has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ).

Acceptance of your notice is contingent on the disclosure of all hazardous materials associated with your operation and their use, storage, transport, quantity, generation and disposal. Information regarding hazardous materials can be obtained from the State of Utah, Department of Environmental Quality, Division of Solid and Hazardous Waste at:

288 North 1460 West  
Salt Lake City, Utah 84114-4880

You are required to contact the Department of Environmental Quality (DEQ), Emergency Response Section (ERS) at the Sections 24-hour response number (801-536-4123) immediately of a spill or discharge of hazardous substances.

The following seed mixture is recommended for your project area.

SEED MIXTURE	lbs/acre
Black Sagebrush	<u>Artemisia nova</u> 1
Indian Ricegrass	<u>Oryzopsis hymenoides</u> 1
Ladak Alfalfa	<u>Medicago sativa</u> 1
Nordan Crested Wheatgrass	<u>Agropyron cristatum</u> 3
Shadscale	<u>Atriplex confertifolia</u> 2
Yellow Sweetclover	<u>Melilotus officinales</u> 1

The seed weights given are for drilling. If it is not possible to drill the seed because of slope limitation, then the seed can be broadcast. If the seed is broadcast, the application rate should be doubled. After broadcasting, the land should be lightly harrowed to bed the seeds. The BLM requires **certified pure live seed** be purchased for the rehabilitation of federal land and may request a copy of the seed tag and purchase receipt for our files.

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811. Thank you for submitting your notice.

Sincerely,

Rex Rowley  
Area Manager
